Patents

In the ever-evolving landscape of technology and innovation, securing and protecting your patents is not just a necessity but a strategic advantage. At Gornitzky, our Patent team stands at the forefront of intellectual property law, offering unparalleled expertise and dedication to safeguarding your inventions. With a team of seasoned patent attorneys and cutting-edge resources, we navigate the complexities of patent law, ensuring your innovations achieve their full potential.

Our Expertise

Tailored, Technologically Advanced, Trustworthy

- **Comprehensive Patent Prosecution:** From analysis of thorough prior art searches to drafting and filing robust patent applications, our approach is meticulous and tailored. We specialize in both domestic and international patent prosecution, ensuring your inventions are protected at home and abroad.
- **Strategic Patent Portfolio Management:** Recognizing the value of your patents extends beyond the initial grant, we provide strategic counsel on portfolio management, helping you maximize the value and impact of your patent assets in alignment with your business goals.
- **Defensive and Offensive Litigation:** In the face of infringement or disputes, our team is prepared to defend your rights vigorously. Equally, we stand ready to enforce your patents, utilizing a strategic, aggressive, yet measured approach to litigation.
- **Innovative Solutions for Complex Technologies:** Our patent attorneys possess deep technical knowledge across a wide array of industries, enabling us to handle patents for complex technologies with expertise and innovative legal strategies.

How Do We Do It?

We offer the following array of services:

- Due Diligence (e.g. M&A, IPO, financing, etc.).
- Patent Drafting and Prosecution.
- Patent mining and mapping.
- IP portfolio management.
- Develop and execute domestic and international patent portfolios (inclusive of Patent, Design and Utility Model rights).
- Prosecution, including interference and 3rd party observations, Green inventions, PPH, patent term extensions (PTE and SPC), etc.

- Post Allowance and Grant Proceedings (e.g. opposition, revocation, re-issue, reexamination, etc.).
- Development of customized patent portfolios (e.g. based on competitor's activity and interests).
- Provide opinions and counseling on:
 - Patent and technology landscape analysis
 - Competitor analysis
 - Patentability
 - Validity/Invalidity
 - Freedom to Operate/Infringement
 - Engineering around 3rd party patents
 - Inventorship and ownership
- Coordination and strategy in multinational opposition, revocation and litigation
- Extract value from existing portfolio.
- Expand portfolio through M&A and licensing.
- Commercialization, technology transfer and licensing.
- Patent Litigation and out of court conflict resolution.
- Negotiation of settlement agreements.
- Confidentiality, Trade Secrets protection and misappropriation.

Why Partner with Us?
