**Our firm represented the Football Association in rejecting a request for approval of a derivative claim filed against it, in connection with money transfers from the Association to its member groups.**

News

Our firm represented the **Football Association** in rejecting a request for approval of a derivative claim filed against it, in connection with money transfers from the Association to its member groups.

In a precedential ruling, the District Court rejected the request, adopting our arguments that a derivative claim cannot be filed on behalf of an association in general and on behalf of the Football Association in particular.

The Football Association represented by the manger partner Kfir Ydgar and partner Ofer Fleischer together with adv. Lior Sharabi.
