Investment Funds and the Investors' Right to Know

Client Updates

Court decisions concerning investment funds are quite rare in Israel. The Tel Aviv District Court determined the Investors' right to review all documents of the fund in order to monitor its management by the general partner, placing an emphasis on the contractual language used by the parties in the limited partnership agreement.

Partners Dr. Eyal Raz and Gila Ponte-Shlush, together with associate Amit Ron, review the recent decision in this client update.
