Our firm represented Urbanix LRT in the dismissal of an administrative petition to disqualify Urbanix's bids in a tender estimated at tens of billions of NIS for the planning and construction of the two light-rail lines.

News

Our firm represented **Urbanix TRT** (of which Shikun & Binui is one of the shareholders) in the dismissal of an administrative petition filed in the Tel Aviv District Court, sitting as an Administrative Court, to disqualify Urbanix's bids in a tender estimated at tens of billions of NIS for the planning and construction of the two light-rail lines.

The arguments of the petitioner, the Shapir Group, were based on the intention to file indictments (subject to a hearing) against companies from the Shikun & Binui Group, as well as on the basis of an argument that Urbanix does not meet the financial threshold conditions of the tender.

In a reasoned ruling, **the court dismissed the petition in its entirety and ordered the petitioner to pay legal costs.**

Urbanix was represented by Partners **Ofer Tzur and Itzchak Lazar**, together with Senior Associate **Daniel Barlev**, Associate **Liron Karass** and intern **Linoy Avishay**.
