Representation of AS Profit in the process to turn Migdalor into a private company

News

Our firm represented AS Profit Holdings Ltd., which is one of the largest groups in Israel for financial and pension planning, in the process to turn Migdalor – Alternative Products Ltd., a public company that is engaged in making alternative investment funds accessible to the general public in Israel, into a private company by way of an off-market share purchase and a full purchase offer. Upon the completion of the purchase offer, Migdalor was delisted from trading on the Stock Exchange and it became a private company, wholly owned by AS Profit and its controlling shareholders.
