## Our Impact

### News

Once again, our firm is recognized for our commitment to environmental, social, and corporate governance (ESG) aspects of our activities! At a festive ceremony where the Maala ESG Ranking for 2024 was launched, we received the prestigious Platinum Plus rating, the highest rating, alongside many of our clients – leading companies in the Israeli market. The promotion to the Platinum Plus rating is an additional layer of our comprehensive ESG strategy, which is based on a deep awareness of the social and environmental responsibilities imposed on us as a leading firm in the market, representing the largest and most influential companies in the Israeli business sector.
