New BoD member – an AI system!

News

Abu Dhabi International Holdings company has appointed a new observer to the company's board of directors - an AI system, specially developed for the company by Microsoft.

In their article, our Partners Netta Shaked-Stadler and Shahar Eisner discuss whether this is a real revolution or a gimmick?

Is a BoD allowed (or must?) use AI for its decision-making? And what Israeli law has to say on the matter?

[Read more.](#)
