## **Filing an appeal Against the Disqualification of Judge Amit from issuing a Ruling in the High Court of Justice**

### **News**

Our firm represents the Institute for Structural Reforms LTD (CC) in an appeal to the Supreme Court regarding the self-disqualification of Honorable Judge Amit from issuing a ruling in a petition pending in the High Court of Justice for the past three years. The appeal addresses precedent-setting questions concerning the scope of self-initiated disqualification and the obligation of a judge to preside over a case, the implications of the parties' consent to waive arguments of estoppel, and when an appeal against disqualification will be heard by a panel of three judges.
