Precedent-Setting Decision: Development Improvement Plans Within 100 Meters of the Shoreline

News

Our firm represented Mr. Kobi Avrahami, in an appeal challenging the District Appeals Committee's decision to revoke plans for improving hotel construction within 100 meters of the shoreline—a zone currently prohibited for construction.

The appeal was granted in a landmark decision that eliminated the requirement to reconsider the cancellation of historical construction plans in coastal areas, paving the way for the approval of the hotel development plans.
