## **Gornitzky represents the controlling shareholders of Platforma Marketing Communication Ltd.**

### **News**

**Gornitzky represented the controlling shareholders of Platforma Marketing Communication Ltd. in a claim which was filed against them, for alleged minority oppression. At the end of the proceeding, which lasted for six years, the claim was fully dismissed. Unlike many oppression claims, the Court did not see fit to order a "separation of forces" between the shareholders in the company, despite the apparent crisis of confidence amongst the company's shareholders and despite the fact that the controversy led to additional legal proceedings.**

Moreover, dividends from the company's treasury were not distributed and a principle disagreement erupted over the identity of the Director soon to be appointed. The Court remained undeterred by the events and dismissed the claim.

The company was represented by Kfir Yadgar (Managing Partner) and Associates Ehud Katzenelson and Inbal Ronel.
