Gornitzky & Co. assists in obtaining the first permanent license ever granted in Israel to a solar field.

News

Gornitzky & Co. represented Ketura Sun, a subsidiary of Arava Power Company Ltd. (of the Siemens group) in obtaining a permanent production license for a medium-sized solar field, the first license of its kind to be granted in Israel.

The Public Utility Authority granted Ketura Sun's facility the country's first permanent production license for a solar field, following 11 other provisional licenses that were granted to Arava Power Company. The sum of investments in these energy projects is approximately USD 300 million.

Mr. Jack Smith (Partner) and Ms. Hagar Alon-Windman (Partner) led the representation.
